The party requesting registration of this name certifies that, to her/his knowledge, the use of this name does not violate trademark or other statutes.

Registering a domain name does not confer any legal rights to that name and any disputes between parties over the rights to use a particular name are to be settled between the contending parties using normal legal methods (see RFC1591).

By applying for the domain name and through the use or continued use of the domain name, the applicant agrees to be bound by the terms of NSI's then current domain name policy (the 'Policy Statement') which is available at <ftp://rs.internic.net/policy/internic.domain.policy.txt> . (If this application is made through an agent, such as an Internet Service Provider, that agent accepts the responsibility to notify the applicant of the conditions on the registration of the domain name and to provide the applicant a copy of the current version of the Policy Statement, if so requested by the applicant.) The applicant acknowledges and agrees that NSI may change the terms and conditions of the Policy Statement from time to time as provided in the Policy Statement.

The applicant agrees that if the use of the domain name is challenged by any third party, or if any dispute arises under this Registration Agreement, as amended, the applicant will abide by the procedures specified in the Policy Statement.

This Registration Agreement shall be governed in all respects by and construed in accordance with the laws of the United States of America and of the State of Delaware, without respect to its conflict of law rules. This Registration Agreement is the complete and exclusive agreement of the applicant and NSI ("parties") regarding domain names. It supersedes, and its terms govern, all prior proposals, agreements, or other communications between the parties. This Registration Agreement may only be amended as provided in the Policy Statement.

By affixing my signature below, I hereby agree to all the previous terms and conditions set forth in this agreement.
